MD RASHADUL ISLAM

Software Engineer
Dhaka, Bangladesh | +880 1959981909 | rsrashad99@gmail.com
LinkedIn: linkedin.com/in/rashadkhan97 | GitHub: github.com/rashadkhan97

CAREER OBJECTIVE

Software engineer with hands-on experience across development and quality assurance. Builds full-stack web applications with Next.js, Express.js and MySQL, and verifies software through UI and API test automation with Playwright, Postman/Newman and k6. Uses AI tools such as Claude Code and GitHub Copilot to understand code, debug issues and generate test scenarios. Seeking a role that combines development and software quality, with room to grow into a well-rounded software engineer.

TECHNICAL SKILLS

- **Software Development:** JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, REST API Development, MySQL, Sequelize, Tailwind CSS
- **Software Testing & Quality Engineering:** Manual Testing, Functional Testing, Regression Testing, API Testing, Integration Testing, Performance Testing, Test Case Design, Bug Reporting, Playwright, Selenium, Postman, Newman, k6
- **Automation & Engineering:** UI and API Test Automation, Git, GitHub, GitHub Actions, CI/CD Fundamentals, Docker Fundamentals, Basic Linux and Deployment
- **AI-Assisted Software Engineering:** AI-assisted coding, debugging and code analysis; test scenario and test case generation; prompt and context engineering; requirement analysis and troubleshooting
- **Tools:** GitHub, Jira, Postman, VS Code, Claude Code, ChatGPT, GitHub Copilot

PROJECTS

DMoney Portal: End-to-End UI Automation (Playwright, TypeScript)
GitHub: github.com/rashadkhan97/Playwright-Automation-DMoney

- Automated the full Agent journey on a financial portal: sign-up, Admin activation, System deposit, OTP login, cash-in to a Customer, password reset and Self Statement export to CSV.
- Built the framework with the Page Object Model: 13 tests (9 smoke, 4 negative), 20 tracked validations, serial execution, and data shared between test files.
- Read login OTPs and reset links through the Gmail API, and added a GitHub Actions workflow that runs the suite and uploads the HTML report.

DMoney Performance Testing (k6)
GitHub: github.com/rashadkhan97/K6-Performance-Testing_DMoney

- Designed a 2-minute load test with 13 concurrent flows in four 30-second windows, simulating six users (agents, customers, merchants) on the Deposit, Send Money and Payment APIs at 3 transactions per second per flow.
- Set thresholds for each API (under 1% failed requests, p95 under 1000 ms, 99% checks passing). Result: 1,180 transactions, 0% failures, overall p95 of 113 ms.
- Traced deadlocks to a missing index on Transactions(account): a trial run without it showed 13% failures and a p95 of about 2.4 s, and adding it brought failures to 0%.
- Produced HTML reports and per-API and per-window comparison tables showing how response time changes as load changes.

Blog Management Application (Next.js, Express.js, MySQL)
GitHub: github.com/rashadkhan97/blogsite-using-NextJS-and-Tailwind

- Built a full-stack blog platform with Next.js, React, Tailwind CSS, Express.js and Sequelize/MySQL, with Guest, User and Admin roles.
- Developed REST APIs for authentication, profiles, users and blogs, with JWT login, bcrypt password hashing, role-based access, ownership checks, image upload and email password reset.
- Added title search, category filtering, an admin dashboard to activate or deactivate users, and a responsive layout.

DMoney API Testing (Postman, Newman)
GitHub: github.com/rashadkhan97/dMoney_Postman-API-with-Newman_B19

- Built a Postman collection for a mobile financial service API covering Admin login, user creation, System-to-Agent deposit, Agent deposit, send money, cash-out and merchant payment.
- Automated the run with Newman and a Node.js script that generates HTML reports, and published the API documentation on Postman.

EDUCATION

M.Sc. in Computer Science and Engineering (CSE)
Bangladesh University of Professionals (BUP) | Ongoing

B.Sc. in Computer Science and Engineering (CSE)
Bangladesh University of Business and Technology (BUBT) | 2024

TRAINING & CERTIFICATIONS

Full Stack SDET
Road To SDET, Dhaka | 2026

EXTRACURRICULAR ACTIVITIES

- Former Operation Lead, ESAB BUBT Unit FACE
- Former Innovation Lead, ESAB BUBT Unit FACE
- Former Creative Designer, IEEE RAS BUBT Student Branch
- Ex-Scout, Mirpur Bangla High School Boys Scout Group
